

Preparing out sites for reopening

Policy Statement

As our sites gear up for reopening there are a number of changes being made to our operations in order to keep customers and staff safe.

At the forefront of our minds when making decisions is that Covid-19 is still in circulation and presents a risk. At every stage we have evaluated how we can prevent transmission of the virus and minimise the risk presented to our staff and customers.

The pub is going to look a little bit different for a while but that's ok. We are still the same people who love our jobs and you are still the same customers we love to see. We'll be doing things differently and we'll be asking you to change your behaviours as well. All of this is going to be a bit weird, it may take a little longer than usual and you might find that frustrating, but that's normal.

Some of the measure's we are putting in place are:-

- Enhanced cleaning regimes
- Distancing measures
- Hand sanitiser freely available
- Increased order at table availability
- One way systems
- Staff safety training
- Screens at direct contact points

We need you to stick with us and be understanding during this period. Rest assured we're not doing it for the LOLs and any new procedure we have implemented is there to protect us all.

But you know what? It'll be worth it because we'll be back at work doing what we love and you can get fed, watered and back to socialising. Best of all? NO WASHING UP!!
